## Arab Water World (AWW)

August 2016 / Vol. XXXIX Issue 8

Serving the Water, Wastewater, Desalination & Energy Sectors in MENA - Since 1977

Thanks to over 60 years of experience in water technology, **Rovatti Pompe** provide a comprehensive range of centrifugal pumps for surface and submersible tasks in order to satisfy the most disparate applications for pumping clean water, sewage and aggressive liquids. The Rovatti range of pumps with overgear is available in more than 30 models and in different sizes (50 mm to 250 mm) for low, medium and high heads reaching flow rates over 1000 m<sup>3</sup>/h to suit all types of pumping needs in several sectors.

## Rovatti Launches Pumps with Overgear

Thanks to over 60 years of experience in water technology, Rovatti Pompe provide a comprehensive range of centrifugal pumps for surface and submersible tasks in order to satisfy the most disparate applications for

pumping clean water, sewage and aggressive liquids. The Rovatti range of pumps with overgear is available in more than 30 models and in different sizes (50 mm to 250 mm) for low, medium and high heads reaching flow

rates over 1000 m<sup>3</sup>/h to suit all types of pumping needs in several sectors. If clients have a tractor or a truck and they want to use it as the power source, Rovatti pumps with overgear are the perfect solution to get the job done easily and quickly allowing clients to start pumping in a few seconds upon installation on a smart wheeled trolley, on a three-point linkage or in a reliable truck-mounted unit. These machines represent, in a nutshell, the most suitable answer when an engine-driven or electric motor-powered-pump cannot be used or if the dynamic mobility of the pump is a concern. The extreme installation versatility makes these products the perfect equipment for agricultural tasks, water supply and liquid transfer, with particular reference to the smart, compact and user friendly "Midy" range: small mechanics jewelry able to ensure impressive performances in a compact and light pump body. ■

The range of pumps with overgear is available in more than 30 models
